Current Affairs Of The Industry

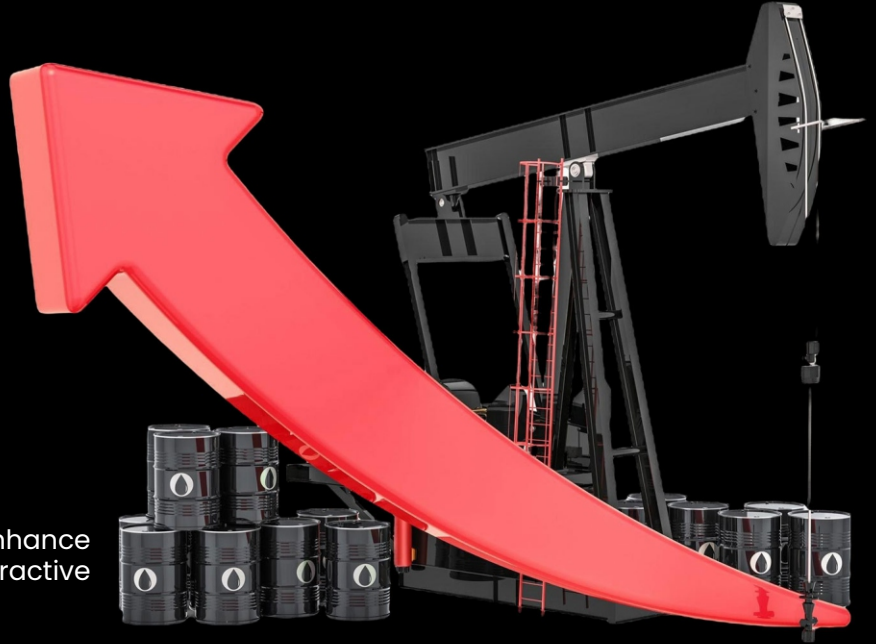

Rajya Sabha Passes Bill to Boost Oil and Gas Investment

The Rajya Sabha recently approved the Oilfields (Development and Regulation) Amendment Bill, 2024, which was introduced in the House in August 2024. Apart from attracting investments in this sector, the bill simplifies certain policies. It also emphasizes reducing dependency on imports by increasing domestic production.

Main points of the bill:

- **Increased Private Sector Involvement:** The amendments encourage private players to invest in offshore oil and gas exploration, boosting domestic production.
- **Streamlined Processes:** The bill aims to reduce delays in granting exploration and production approvals, making operations more efficient.
- **Strategic Resource Utilization:** 85% of India's requirement of oil comes from imports and the bill aims to reduce foreign dependency.

The bill is part of India's broader efforts to enhance energy security and make the country an attractive destination for global energy companies.

Indian Railway Going Green with 97% Electrification

India has one of the largest rail networks in the world and is always bustling with news. And, this time it is for a good reason. Indian Railway has achieved an extraordinary milestone by electrifying approximately 97% of its vast network. The goal is to accomplish 100% electrification by 2025.

This achievement is a significant part of the country's commitment to go net-zero carbon-emitting nation by 2030. Conventional diesel-powered trains are being replaced by greener counterparts enhancing operational efficiency and cost-effectiveness of the network. This transformation is also monumental as it is attributed to be a cost-saving effort.

Consequently, India's energy and transportation segment is also boosted as this move is spurring investments in renewable energy sources and modern infrastructure.

Seamless operations of this lofty mission are only possible if the power dependability is good. To ensure this end, the government has taken strong measures to continue uninterrupted supply of electricity by connecting it to the state and national electric grids.

These efforts are exhibiting the country's commitment to sustainability and bringing the nation to a pivotal position in the global map of green transportation.

A Peek Into Activities from December...

Customer Visits & Audits

This past month, VINIR strengthened its client relationships through a series of successful customer visits and comprehensive audits. These visits provided valuable opportunities to understand client challenges and discuss innovative solutions. Audits focused on areas such as process improvement, quality control, and safety compliance.

Technical Training About NDT Process

We recently conducted a valuable technical training session led by Mr. Ragavendra Kumar, an esteemed NDT Level III expert. The session focused on advanced NDT techniques, including Ultrasonic Testing and Radiographic Testing. Mr. Kumar provided in-depth knowledge on principles, applications, and industry standards, enhancing the technical expertise of our team.

Technical Training about Forging & PCC Proces

On 19.12.24, we conducted a valuable technical training session on Forging & PCC Processes conducted by Mr. Venkatesan, DGM - Operations. The session provided in-depth insights into various aspects of forging processes. Mr. Venkatesan's expertise and practical experience made the session highly informative and engaging for all participants.

Townhall Meeting

We recently hosted a successful townhall meeting. Key highlights included presentations on company achievements and upcoming projects, an open forum for employee questions and feedback, and recognition for outstanding team contributions. The meeting fostered open communication, strengthened team spirit, and reinforced VINIR's commitment to employee engagement and growth.

Slogan & Drawing contest Participants

Slogan & Drawing Contest About Water Conservation

VINIR successfully organized a "Water Conservation" Slogan & Drawing Contest last month. Winners were awarded prizes, and their entries were displayed to raise awareness. This initiative reflects VINIR's commitment to environmental responsibility and community engagement.

Birthday Celebrations

This past month, VINIR celebrated the birthdays of our valued employees with fun activities. These celebrations foster a positive and inclusive work environment, demonstrating our appreciation for each team member's contributions.
