

VINIR
ENGINEERING

Of the four elements: air, earth, water, and fire; Man stole only one from the gods.

Fire!

And with it, man forged his artistry upon the world.

Go Green! Go Safe! Go Heavier! Go Forward!

About VINIR

VINIR Engineering Limited is a forging company situated in the southern part of India.

It is spread across 38,160 square meters over the three units at **Bangalore**(Karnataka), **Hosur**(Tamil Nadu) and **Kalukondanapalli**(Tamil Nadu). It has installed a plant capacity of 38000 tons per annum.

The forging capabilities include:

- ✔ Closed Die Forging
- ✔ Open Die Forging
- ✔ Ring Rolling
- ✔ Radial Forging
- ✔ Vertical Upset Forging
- ✔ Machined Components

We take pride in being primarily energy, oil and gas, earth moving, railways & defence focused forging company with a history of inorganic growth.

We have spread our wings by establishing ourselves across the three plants- Unit I, Unit II and Unit III along with associated machining facilities.

Bangalore

At our first unit, we manufacture closed die forgings up to 90 kilograms per piece in weight.

Hosur

At our second unit, we manufacture closed die forgings up to 1400 kilograms per piece in weight and execute ring rolling up to 1500 mm.

Kalukondanapalli

At our third unit, we manufacture large open dies up to 6000 kilograms per piece in weight and ring rolling up to 4500 mm.

Why VINIR is the **Perfect Choice!**

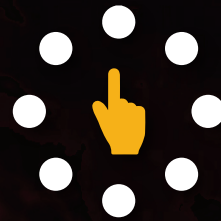

VINIR Engineering is an End-to-End Boutique Forging & Machining Shop.

- 🌿 Die Design
- 🌿 Die Manufacturing
- 🌿 Closed Die Forging
- 🌿 Open Die Forging
- 🌿 Ring Rolling
- 🌿 Heat Treatment
- 🌿 Machining
- 🌿 Testing
- 🌿 Assembly

VINIR Engineering is the **one stop solution** for all kinds of forging requirements.

Over 40 Years of Existence

High Variety of Products and Materials

Economical and Lower Volume Batches

Multiple Infrastructure over 3 Locations

End to End Customer Support

Certified Green Forging Company

Products & Services

VINIR Engineering Private Limited is fuelled by burning ambitions.

We are the leading manufacturers in

Open Die Forging

Closed Die Forging

Vertical Upset Forging

Ring Rolling

Radial Forging

Machined Components

We specialise in serving the following industries on a global level:

Oil & Gas

Subsea

Defence

Mining

Hydraulics

Aerospace

Nuclear Power

Railways

Wind Energy

VINIR Engineering Private Limited
has been certified as a Quality Forging
Manufacturer by various certifying agencies.

Unit 1

Unit 2

Unit 3

Infrastructure

Our end to end forging facilities make it easier to meet the growing customer demands on a global level.

1. Design Lab
2. Die Shop
3. Inspection & Testing Lab
4. Forge Shop
5. Heat Treatment
6. Machine Shop

VINIR is always the Right Choice!

If you can **design it**, we can
forge it

- 🌱 We manufacture and supply zero defect products on time, every time
- 🌱 We conserve natural resources and prevent pollution and wastage
- 🌱 We ardently look after the safety & wellbeing of each stakeholder
